EDUCATION

2024 - 2028 (ongoing)
ST. JOSEPH'S INSTITUTE OF
TECHNOLOGY

- Bachelor of Engineering
- CGPA : 8.347 (current)

SCHOOLING :

- The Leaders Academy, Karaikudi.

EXPERIENCE

- I Have Completed My Intern
At Marz Technologies with a
Focus on Python Web
Development

LANGUAGES

- English (Fluent)
- Tamil (Fluent)
- Hindi (Basics)

PROFILE

Computer Science and Engineering student specializing in Cyber Security Engineering, with strong interest in software engineering, cloud computing, and data science. Skilled in Java, C programming, and R with proven problem-solving ability. Certified in AWS Cloud, Networking, Linux, Generative AI, and completed NPTEL's Data Science for Engineers course. Focused on building a strong technical foundation to excel in product-based companies.

TECHNICAL SKILLS

- **Programming :**
 - Java (Core + DSA), C, R (Data Science)
- **Cloud and Platforms :**
 - AWS Cloud Foundations, Generative AI Foundations
- **Cybersecurity & OS :**
 - Linux (Unhatched), Networking Basics
- **Soft Skills :**
 - Problem-solving, Team Collaboration, Aptitude

CERTIFICATIONS

- AWS Academy Graduate - Cloud Foundations
- AWS Academy Graduate - Generative AI Foundations
- Cisco - Networking Basics
- Cisco - Linux Unhatched

PROJECT

Virtual Mouse using Python (2025)

Developed a Python-based Virtual Mouse leveraging OpenCV and hand gesture recognition.

Enabled cursor movement and click operations using real-time camera input. Showcased practical application of computer vision and Python programming.
